### Product Discontinuation Notification of ComfortCough® - Series

Dear valued Customer,

At WILAméd, the consistently high and sustained quality of our products has been our top priority for more than 20 years. As your reliable partner we pursue a common goal: to ensure best patient care through individual, comfortable and effective therapies.

For offering the best patient care product, it is necessary, to improve our products consistently and remove products of our portfolio which are no longer comply with the current high-performance standards.

For this reason, the mechanical in-/ex-sufflators **ComfortCough® Plus/ComfortCough® II** will be discontinued **as of 1<sup>st</sup> of February 2022**. Device related consumables such as breathing sets are still available. Following part numbers are affected by the discontinuation:

<b>Article number:</b>	<b>Description:</b>	<b>End of Production/Sale:</b>
<b>100649</b>	<b>ComfortCough® Plus</b>	<b>January 31, 2022</b>
<b>100652</b>	<b>ComfortCough® II</b>	<b>January 31, 2022</b>

The process of discontinuation is an essential part of WILAméd's Product-Lifecycle-Management and represents the accustomed high standard of service and support towards our customers.

If required, don't hesitate to get in touch with your responsible contact person of our sales team.

Kind regards,

**WILAméd** GmbH
